TT Fuel is a global technology business that enables clients to manage the storage and handling of hydrocarbons whilst mitigating risk and realising opportunity.

We have global experience supporting companies with fuel management systems, outdoor payment terminals, forecourt controllers, point of sale terminals, bulk fuel loading systems, management software services and specialised fuel storage & dispensing solutions.

We are a data rich business that delivers meaningful reporting and information to our customers to help them overcome challenges and manage risk.

Our excellence in technical listening and our focus on outcomes have allowed us to become proven innovative problem solvers.

We strive for durability, simplicity and exceptional performance when designing our products and solutions.

Our flexible solution architecture allows us to help customers manage change in their business and industry.

We are customer and outcome focused, understanding that we will be judged by our actions and performance.

# A Cost Effective Point of Sale Solution for Fuel Retailers

T-POS Terminal

The TT Fuel T-POS Terminal is a specialised yet cost effective forecourt control and POS solution, designed to meet the needs of small-medium sized fuel stations with the flexibility and scalability to suit your business.

» Manage all your sales on one screen; supported by fast, reliable and intuitive software with an interface purpose built for fuel retailers.

» Control the operation of all forecourt equipment via the TT Fuel FC6000-T, including Fuel Dispensers, Automatic Tank Gauging (ATG), Electronic Price Signs and Outdoor Payment Terminals (OPT).

» Manage Wet Stock and Dry Stock inventory in real time with localised and optional cloud-based reporting.

» Dedicated Customer Screen to display sales transactions, product advertising and promotions.
